

BLIND EYE

Blind Eye is a Saskatchewan band composed of veteran musicians with a central focus of simply sounding great. This fun loving group of talented artists do their best to deliver rock and country rock covers that will have you partying to The Black Crowes, Trooper and Journey, or loving the country sass of Miranda Lambert, Shania Twain and The Band Perry.

With six group members including both female and male lead singers, Blind Eye covers a variety of music from a set list that has been described as one good song after another: *“This band is always about improvement, whether it’s practice or recording we are always working to bring the best experience and songs to our fans...All our songs are ones we love to play and it shows every night!”*

Packed with a few surprises, Blind Eye will certainly have everyone in the party spirit: *“Our set list is full of fun and our goal is to entertain.”* The band couldn’t be happier with their sound as well as support, and it shows – be sure to book them for your next event or get out and see them at a venue near you.
